

Answers provided to questions received regarding the City's RFP for Solid Waste and Recycling Services

05-Jul-17

Question

1. Since there is a Bid/Proposal Deposit of \$5,000 in the form of a Cashier's Check required and a bond will not be accepted in lieu of the Cashier's Check, we will need a W-9 Form from the City of Fair Oaks Ranch. We do understand that the check will be returned to us after award of the contract (whether Waste Connections of Texas or another party is selected), unless we default in the bid process. However, it is a company requirement to set up a new vendor account prior to being able to process any check. In order to establish the new vendor account we will need the W-9 Form.

2. As expenses such as fuel cost, landfill disposal cost, equipment and other operating costs rise, will there be any allowance for price adjustments including Consumer Price Index (CPI) adjustments during the term of the contract?

3. Will the City accept an annually renewable performance bond form

4. In an effort to minimize confusion on service days for the residents, please provide service days/areas.

5. What's the current rate for service

6. What's the annual tonnage for trash

7. What's the annual tonnage for recycling

8. Approximate set out rate for residential recycling? With the increase in receptable size (18 gal to 95 gal), do you anticipate an increase in the current set out rate?

9. Brush/Bulk Collection Zones and number of days the City allows per zone. Any existing volume limits per home for brush/bulk?

10. Should Household hazardous waste be included in our rate or would it be a stand alone charge

Answer

W-9 will be provided upon request

It's up to Proposer to propose modifications of compensation in the proposal

To be further determined

Attached

\$27 per month

Information Not Available

Information Not Available

It's up to Proposer to propose the set out rate in their proposal

See attached and refer to Section 7.1, 9.5 and Attachment 1 of RFP

Refer to Section 2.1 and 2.2 of RFP
